Occupational Health Physicians and Specialists Association
Izmerov Research Institute of Occupational Health

Supported by:

Novopolotsk City Executive Committee
Polotsk District Executive Committee

**Organizer of the International Symposium
on Preventive and Industrial Toxicology**

Erismann Scientific Center of Hygiene

GENERAL INFORMATION.

The forum is an interdepartmental and interdisciplinary scientific and practical event dedicated to the discussion of occupational safety and health, occupational medicine, as well as preventive measures organization actual problems. Participation of leading experts in these areas of science are planned, as well as discussion of general public health risks assessment under exposure of environmental factors, including the working environment studies.

The III international scientific Forum "Health and Safety in the Workplace" will be held in the homeland of Euphrosyne of Polotsk and Francis Skaryna, in a city with a rich historical and cultural heritage called Polotsk!

The first mention of Polotsk in "The Tale of Bygone Years" dates back to the year 862. It is one of the oldest cities not only in Belarus, but also in the entire East Slavic region. Thanks to its rich historical and cultural heritage, its rich cultural life, Polotsk was the first Belarusian city has been awarded the title "Belarus cultural capital".

During its history, Polotsk survived the invasion of the Vikings, successfully fought against the crusaders; it was repeatedly occupied by the troops of various conquerors. Polotsk became one of the centers of Christianity in the East Slavic lands.

Enlightener Euphrosyne of Polotsk - the first woman of Belarus, canonized was born here. Polotsk was the center of Polotsk Principality in X-XIII centuries. The city became part of the Grand Duchy of Lithuania in 1307. Belarusian first printer and enlightener Frantsisk Skorina was born here. Polotsk is one of the most beautiful cities in Belarus. It is located in a picturesque place where the Polota River flows into The Western Dvina.

Polotsk has many historical buildings and monuments. Polotsk is the geographical center of Europe, according to the calculations of scientists, and every guest can receive a certificate that he was here.

Competition "The best scientific work of a young scientist" (the Best scientific research of a young scientist and specialist), presentation of poster presentations, round tables and master classes will be included in the program (preliminary program).

Forum materials will be published in the form of scientific papers collection with the assignment of ISBN, DOI and placement in the database of the Russian science citation index (RSCI), in the scientific electronic library E-library.

Forum participants and guests will enjoy an interesting cultural program.

LIST OF THE MAIN ISSUES FOR DISCUSSION AT THE FORUM

1. Occupational health, science development general issues. Safety and health at workplace preservation vectors. The strategy of scientific and technological development implementation.

2. Actual problems of preventive toxicology, chemical factors industrial impact aspects. Hygienic regulation of xenobiotics, hygienic standards and international standards harmonization (the principle of integrated hygienic regulation). Xenobiotics potential and real danger (risk) for humans assessment.

3. Occupational and work related (associated) diseases: modern methods of prevention, diagnosis, treatment and rehabilitation. Disease and profession causal nexus expertise.
